CERTIFICATE

*This is to certify that the report titled **CAPS Portal** is a bona fide record of work done by **Aditya Dungdung (2041102), M. Shaun Daniel (2041114), Sanjeet Singh Saini (2041131) & Sankalp Nayak (2041132)** of Christ (Deemed to be University), Bangalore, in partial fulfillment of the requirements of V Semester BCA during the year 2022.*

Head of the Department **Faculty In charge**

Valued-by:

Name : Aditya Dungdung
M. Shaun Daniel
Sanjeet Singh Saini
Sankalp Nayak

Register Number(s) : 2041102
2041114
2041131
2041132

Examination Centre : CHRIST (Deemed to be University)

Date :

ACKNOWLEDGEMENTS

First of all, I thank God almighty for his immense grace and blessings showered on me at every stage of this work.

I am greatly indebted to **Dr. Ashok Emanuel**, Head, Department of Computer Science, CHRIST (Deemed to be University) for providing the opportunity to take up this project as part of my curriculum.

I am greatly indebted to UG Coordinator, **Prof. Beaulah S**, for providing the opportunity to take up this project and for helping with her valuable suggestions.

I am deeply indebted to our project guide **Dr. Arokia Paul Rajan**, for his assistance and valuable suggestions as a guide. He made this project a reality.

I am deeply indebted to our alumni guide **Mr. Umesh Joshi**, for his assistance and valuable suggestions as a guide.

I am deeply indebted to all my teammates for their valuable suggestions and contributions to make this project a reality.

I express my sincere thanks to all faculty members and staff of the Department of Computer Science, CHRIST (Deemed to be University), for their valuable suggestions during the course of this project. Their critical suggestions helped us to improve the project work.

ABSTRACT

CAPS Portal provides a platform for volunteers & mentors in a club to facilitate the daily club activities such as - hosting events for volunteers, recording attendance, assigning grades & work related to events. This platform allows volunteers to see the progress of their work, earn credit points at their university, and arrange and carry out major and small-scale activities.

Volunteers will also be able to browse future events and volunteer for them or have them allocated to them by the heads, as well as check their allocation. After working for events, volunteers will be able to record their experiences in a work journal. This will eventually be assessed and graded by their respective heads. The method will make it easier for heads to evaluate volunteers and will also allow volunteers to view their marks. The heads will be able to mark a volunteer's participation at meetings and activities based on their presence. Volunteers will be able to view their attendance in the system.

As the existing system involves a lot of manual work i.e making Excel sheets for attendance & managing work diary submissions as hard copies. Our project aims at automating all the manual work into a portal where volunteers & mentors can collaborate on a platform together.

TABLE OF CONTENTS

Acknowledgments **iii**

Abstract **iv**

List of Tables **v**

List of Figures **vi**

1. Introduction 1
   - 1.1 Background of the project
   - 1.2 Objectives
   - 1.3 Purpose, Scope and Applicability 2
   - 1.4 Overview of the report

2. System Analysis and Requirements 4
   - 2.1 Existing system:
   - 2.2 Limitations of the existing system
   - 2.3 Proposed System
   - 2.4 Benefits of the proposed system 5
   - 2.5 Features of the proposed system
   - 2.6 System Requirements Specification: 6
     - 2.6.1 User Characteristics:
     - 2.6.2 Software and Hardware Requirements:
     - 2.6.3 Constraints: 7
     - 2.6.4 Functional Requirements 8
     - 2.6.5 Non-Functional Requirements 10
   - 2.7 Block Diagram 11

3. System Design 12
   - 3.1 System Architecture
   - 3.2 Module Design 13
   - 3.3 Data Flow Diagram 14

3.4 ER Diagram 15
3.5 Database Design
3.5.1 Table Design
3.5.2 Data Dictionary
3.6 Interface and Procedural Design 16
3.6.1 User Interface Design

4. Implementation 19
4.1 Coding Standards
4.2 Coding Details
4.3 Screen Shot

5. Testing 25
5.1 Testing Approaches
5.2 Test Cases
5.3 Test Reports

6. Conclusion 35
6.1 Design and Implementation Issues
6.2 Advantages and Limitations
6.3 Future Scope of the project
